

## POLICY STATEMENT AND REGULATIONS

### Number: 400.1

### CREEK MAINTENANCE

#### POLICY OBJECTIVE

To undertake a creek maintenance program to prevent flooding.

#### POLICY

1. The District will undertake a program to prevent flooding by clearing blockage or removing ice in portions of a creek where:
  - a. the portion of the creek is situated on District owned property; or
  - b. the portion of the creek is situated within a right-of-way that grants the District the right to enter onto private lands for the purpose of creek maintenance, or
  - c. the portion of the creek is not situated in the areas outlined in Sub-section (a) or (b) but an emergency has occurred that threatens public safety. In this case, the response shall be limited to only performing the work necessary to protect public safety but not for repairing damage or the reclamation of the creek.
2. The District does not have sufficient resources or equipment to provide creek maintenance in any portion of a creek that does not comply with the provisions of Section 1.
